Customer Service

What are NVQ's?

To study for a National Vocational Qualification is to learn relevant workplace skills. They range from basic work activities at level 1 to senior management at level 5. Most Learners work towards Level 2 or 3. NVQs meet standards set by national, employer-led organisations. As a Beneast Learner the emphasis is on gaining practical skills and abilities.

How is it Delivered?

The qualification is delivered both in the workplace and within our centres by a dedicated team of Trainer/Assessors. All training is flexible and tailored to suit the individuals needs and working environment with an Individual Training Plan agreed with both the learner and employer. All learners will receive guided one-to-one and group based training to obtain necessary underpinning knowledge to complete units of their qualification. Assessors will then visit the learners workplace and carry out observations to assess competency across optional units. Learners will gather work based evidence throughout their qualification where employers will mentor and support the learner in their working environment. All learners are given a secure password protected online portfolio that they are able to access at any time and complete work. Assessors are on hand to issue guidance and support throughout the learner journey both face to face and through the online portfolio system.

Assessment

The NVQ is achieved by gathering a portfolio of evidence, using a variety of assessment methods.
