

The logo for the Training Quality Standard, featuring the text 'TRAINING QUALITY STANDARD' in white capital letters on a dark grey background with an orange curved border on the right side.

TRAINING
QUALITY
STANDARD

Beneast Training Limited has successfully achieved the Training Quality Standard.

What is the Training Quality Standard?

The Training Quality Standard is a framework and an assessment and certification process which recognises and celebrates the best organisations delivering training and development solutions to employers.

What is the purpose of the Training Quality Standard?

The aims of the Training Quality Standard are to create an assessment framework and process through which the best organisations providing and delivering training and development solutions to employers can be recognised and marked out.

What are the benefits of the Training Quality Standard to you?

Increase confidence in purchasing training. The creation of a rigorously certificated, national badge has the potential to raise confidence - employers who train say that a successful Standard will encourage them to arrange more training overall, especially with external provision.

“Here at Beneast we have been working very closely with our employers to ensure the training and development solutions we offer meet the needs of their learners and themselves. Achieving the standards emphasises our commitment to a truly Employer Responsive Provision”

A handwritten signature in black ink that reads 'Sara Gaskell'.
